DESCRIPTORS	Accreditation (Institutions); *Adult Education; Annual Reports; *Budgets; Educational Facilities; Eligibility; *Federal Aid; *Federal Programs; *Higher Education; International Education; International Educational Exchange; Organizational Development; Program Evaluation; Student Personnel Services; Veterans Education
IDENTIFIERS	Developing Institutions; *Office of Education

ABSTRACT

The Factbook, an annual publication of the Bureau of Higher and Continuing Education, presents information on each of the Bureau's programs. It provides a brief legislative history of the authority under which the programs are administered and gives the funding and awards history of each. Programs that have been transferred or have had authorization repealed are deleted. Information on student financial aid programs is not included. Extensive data tables are provided, with some narration. The current factbook contains information for fiscal year 1977 as well as 1978, since a factbook was not produced for the earlier year. The divisions included in the report are the Office of the Deputy Commissioner, Student Services and Veterans Programs, Training and Facilities, Institutional Development, International Education, Educational Systems Development, and Eligibility and Agency Evaluation. Tables giving budgetary obligations for the programs are provided for fiscal years 1973 through 1978. (MSE)

NOTE TO USERS OF THE FACTBOOK

For a variety of reasons, a Factbook was not published in 1977. The present edition contains data for both fiscal years 1977 and 1978, and replaces all previous editions of the Factbook.

MEMORANDUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION

TO : BHCE Personnel

DATE: NOV 3

FROM : Deputy Commissioner for
Higher and Continuing Education

SUBJECT: Bureau Factbook

Each year the Planning Staff, with the cooperation of Division Directors and program staff, prepares a Bureau Factbook. Data appearing in this Factbook represent the most recent information available for each of the Bureau's programs. It should be noted that this issue of the Factbook is the first to reflect the division of the former Bureau of Postsecondary Education into the Bureau of Student Financial Assistance and the Bureau of Higher and Continuing Education. Consequently, information on student financial aid programs is not included. The Factbook provides a brief legislative history of the authority under which these programs are administered and gives the funding and awards history of each program. Programs which have been transferred to other bureaus or agencies, or whose authorizing legislation has been repealed, have been deleted from the Factbook.

Because of new reporting regulations, some program output measures were not available at the end of fiscal year 1978. Where possible, estimates were included to increase the utility of the Factbook. An explanatory footnote identifies all estimated figures. Estimates are replaced with actual reported figures each time the Factbook is revised. In other cases, data were not available at the time this Factbook was compiled, and will appear in the 1979 revision.

Bureau staff are requested to use the Factbook as the official source for historical and current program data to insure consistent and accurate reporting of program data. Revisions of or additions to Factbook data should be brought to the attention of the Planning Staff, Room 4060, ROB #3.

Alfred L. Moyé

BUREAU OF HIGHER AND CONTINUING EDUCATION

Bureau Responsibilities

The Bureau of Higher Education was originally established January 1, 1965 for the purpose of promoting the cause of higher education, primarily through programs of financial assistance to institutions of higher education and to college and university students. In February 1972, the Bureau of Postsecondary Education was created, merging programs administered by the Bureau of Higher Education with those programs administered by the Institute of International Education. In the Spring of 1977, the Bureau was divided into the Bureau of Student Financial Assistance and the Bureau of Higher and Continuing Education. The Bureau of Student Financial Assistance administers all student financial aid and student grants programs formerly housed within the Bureau of Postsecondary Education. The Bureau of Higher and Continuing Education administers programs of assistance to postsecondary education for international education, professional and graduate training, community service, construction, institutional assistance, and special assistance for disadvantaged students.

Scope of Program Activities

The Bureau of Higher and Continuing Education houses a substantial number of Federal assistance programs which were enacted to respond to the growing national commitment to increasing access to postsecondary education and the support of quality postsecondary education. Programs range from pre-college student services (such as the Upward Bound program) to fellowships for graduate study, both within the United States and throughout the world. Other programs assist institutions to enrich the quality of their curricula for their traditional students and an expanding population of adults seeking continuing education. To enhance its ability to administer this broad range of programs, the Bureau obtains the advice of the postsecondary education community through the use of advisory committees, evaluation panels, and special consultants.

PART II

PROGRAM FUNDING AND PERFORMANCE MEASUREMENTS

DIVISION OF STUDENT SERVICES AND VETERANS PROGRAMS

Title IV, Subpart 4 — Special Programs for Students from Disadvantaged Backgrounds

P.L. 89-329 — Higher Education Act of 1965 (as amended)

This subpart of Title IV, as amended, authorizes one appropriation to be distributed among several programs designed to assist students from disadvantaged backgrounds. Initial legislation (1965) authorized Talent Search activities. The Education Amendments of 1968 transferred the Upward Bound Program from the Office of Economic Opportunity and added a new program, Special Services for Disadvantaged Students. The 1972 Amendments added the Educational Opportunity Centers Program, while the 1976 Amendments added Training Authority and Service Learning Centers to the Special Programs appropriation.

Title IV, Subpart 4, Upward Bound
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Student Services and Veterans Programs

Upward Bound is a program designed to generate the skills and motivation necessary for success in postsecondary education among youths from low-income backgrounds who have academic potential but lack adequate secondary school preparation, and who may be physically handicapped or suffer severe rural isolation. The program acts to remedy inadequate academic preparation and motivation of secondary school students, thereby increasing their promise for acceptance and success in postsecondary schools.

Upward Bound seeks to attain these objectives through a summer residential program on a college campus and follow-up activities during the ensuing school year.

The Commissioner is authorized to make grants to and contracts with institutions of higher education, combinations of such institutions, public and private agencies, and, in exceptional cases, secondary schools and secondary vocational schools.

	FISCAL YEAR									
Funding ($'s in thousands)	1965	1966	1967	1968	1969	1970	1971	1972	1973	1974
Total Authorization for Special Programs	1/	1/	1/	1/	2/ 10,000	56,680 2/	96,000 2/	2/ 96,000	100,000 2/	100,000 3/
Total Appropriation for Special Programs	1/	1/	1/	1/	1/	44,601	50,000 2/	2/ 51,000	67,331 2/	70,331 3/
Allocated to Upward Bound	0	0	0	0	0	29,601 4/	30,000 5/	6/ 31,000	38,331	38,331
Obligated Under Upward Bound	3,225	25,000	28,000	30,000	30,723	29,600 4/	30,000 5/	7/ 29,599	38,331	38,331

1/ There were no specific authorizations or appropriations for Upward Bound during these years. There was an OEO agency allocation made from the total appropriations of Title II-A of the Economic Opportunity Act. 1965 funding includes Upward Bound pilot programs under Section 205, 207.

2/ Includes three programs - Upward Bound, Talent Search, and Special Services for Disadvantaged Students.

3/ Includes four programs - Upward Bound, Talent Search, Special Services and Educational Opportunity Centers.

4/ Includes $1,301,000 for administrative expenses.

5/ Includes $1,500,000 for administrative expenses.

6/ Excludes $4 million supplemental appropriation for Veterans' projects.

7/ In addition, $1.4 million was set aside for the Right-To-Read program.

Title IV, Subpart 4, Upward Bound

Funding ($'s in thousands)	FISCAL YEAR								
	1975	1976	1977	1978	1979	1980	1981	1982	1983

Average Federal Cost Per Student		$989	$1,225	$1,225	$1,132	$1,189	$1,035	$1,013	$994	$867

1/ These data were not available when this program was transferred from OEO to the Office of Education.

2/ In FY 1972, a supplemental Veterans appropriation was made in both Talent Search and Upward Bound. In Upward Bound, $4 million (in addition to $31 million for the regular program) was appropriated for Veterans. As a result, all program output measures reflect these Veteran's projects.

3/ Figures include Special Veterans receiving Upward Bound assistance.

4/ Includes 282 Veteran's proposals.

5/ Of the 51,755 students, 12,200 were veterans. The Special Veterans projects also provided Talent Search type services to approximately 25,130 additional persons who did not receive regular Upward Bound services.

1/ Data are not yet available because of changes in reporting procedures.

2/ The ethnic/racial categories have been changed in accordance with the Federal Interagency Committee on Education's report entitled, FICE Report: Racial/Ethnic Categories, which develops racial/ethnic categories to be used governmentwide in collecting ethnic data.

Title IV-A, Subpart 4, Educational Talent Search Program
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Student Services and Veterans Programs

This program has three objectives. The first is to identify qualified youths of financial or cultural need, (including physically handicapped, those experiencing severe rural isolation, or lacking adequate secondary school preparation), especially such youths who have delayed pursuing postsecondary educational training. The program encourages these youths to complete secondary school and undertake postsecondary educational training. Secondly, the program publicizes existing forms of student financial aid, including aid furnished under this Title. Thirdly, the program encourages secondary school or college dropouts of demonstrated aptitude to reenter educational programs.

To further at least one of the above objectives, the Commissioner may enter into contracts with or award grants to institutions of higher education, including institutions with vocational and career education programs, combinations of such institutions; public and private nonprofit agencies and organizations (including professional and scholarly associations); and, in exceptional cases, secondary schools and secondary vocational schools.

Funding ($'s in thousands)		FISCAL YEAR							
	1965	1966	1967	1968	1969	1970	1971	1972	1973
Total Authorization for Special Programs 1/	Such Sums	As May Be	Necessary		10,000 3/	56,680 3/	96,000 3/	96,000 3/	100,000 3/
Total Appropriation for Special Programs	0	2,000	2,500	4,000	4,000 3/	44,601 3/	50,000 3/	51,000 3/	67,331 3/

Obligated Under Talent Search	0	2,000	2,492	3,884	3,876	5,000	5,000	5,000 4/	6,000

1/ A grant/contract funding ceiling of $100,000 was in effect until this limitation was removed by The Educational Amendments of 1972 (P.L. 92-318).

2/ The actual amount available was only $3,900,000 due to a $100,000 savings requested by the Administration.

3/ FY 1969 authorization of $10,000,000 includes Talent Search, Special Services for Disadvantaged Students, and $500,000 for planning activities of Upward Bound Programs. From 1970-1973, both the authorization and appropriation include Talent Search, Special Services for Disadvantaged Students, and Upward Bound Programs. Beginning in 1974, authorization and appropriation include these three programs plus the Educational Opportunity Centers Program.

4/ Excludes $1 million supplemental appropriation for Special Veterans projects.

Title IV-A, Subpart 4, Special Services for Disadvantaged Students
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Student Services and Veterans Programs

This program is designed to provide remedial and other supportive services for students with academic potential who are enrolled or accepted for enrollment at the institution which has received a Federal grant and, who, by reason of disadvantaged educational, cultural, or economic background, severe rural isolation, or physical handicap, are in need of such services to assist them to initiate, continue, or resume their postsecondary education.

The Education Amendments of 1974 extended such services to students of limited English-speaking ability who are in need of bilingual education teaching, guidance, and counseling in order to enable them to pursue a postsecondary education.

The Commissioner may enter into contracts or award grants to institutions of postsecondary education and combinations of such institutions.

Title IV, Part A, Subpart 4, Educational Opportunity Centers
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Student Services and Veterans Programs

This program like the other Special Programs is targeted at youths from low-income families who have academic potential, but who may lack adequate secondary school preparation, be physically handicapped or suffer severe rural isolation. Specifically, it is designed to serve areas with major concentrations of low-income persons by providing residents thereof with information concerning financial and academic assistance available for postsecondary education; assistance in preparing the necessary applications and other documentation for admission to an institution; counseling; and tutoring and other necessary assistance for students enrolled in postsecondary institutions. The Centers also serve as recruiting and counseling pools to coordinate staff and other resources of postsecondary institutions in admitting educationally disadvantaged persons. These program services are developed and offered in coordination with other applicable programs and services.

The Commissioner is authorized to make grants to, or contracts with: institutions of higher education, including institutions with vocational and career education programs; combinations of such institutions; public and private agencies; and, in exceptional cases, secondary schools, for planning, developing and carrying out services authorized under the Educational Opportunity Centers program. The Federal government may pay up to 75% of the cost of establishing and operating the Centers.

Title IV, Subpart 4, Training Authority
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Students Services and Veterans Programs

The Commissioner is authorized to enter into contracts with institutions of higher education and other appropriate public agencies and nonprofit private organizations to provide training for staff and leadership personnel who will specialize in improving the delivery of services to students assisted under Special Programs. (Special Programs include: Educational Opportunity Centers, Service Learning Centers, Special Services for Disadvantaged Students, Talent Search, and Upward Bound.)

Financial assistance may be used for the operation of short-term training institutes designed to improve the skills of participants in such institutes, and for the development of inservice training programs for such personnel.

Title IV, Subpart 4, Service Learning Centers
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Student Services and Veterans Programs

This program pays up to 90 per centum of the cost of establishing and operating or expanding service learning centers at institutions of higher education and other postsecondary educational institutions serving a substantial number of disadvantaged students. It (a) provides remedial and other special services for students who are enrolled or accepted for enrollment at that institution, and (b) serves to coordinate and supplement the ability of that institution to furnish such services to such students.

Title IV, Subpart 5, Educational Information Centers
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Student Services and Veterans Programs

The 1976 Amendments authorized a program of Education Information Centers which would provide educational information, guidance, counseling, and referral services for all individuals, including those residing in rural areas. Funds are allocated by the Commissioner on the basis of plans submitted by the States, and the Federal share may not exceed two-thirds of project cost.

Title IV, Section 420, Veterans' Cost-of-Instruction Payments to Institutions of Higher Education
P.L. 92-318, Higher Education Act of 1965 (as amended)
Division of Student Services and Veterans Programs

This program of institutional aid provides for a cost-of-instruction payment to postsecondary institutions based on their undergraduate veteran enrollment. Payments are based on the number of veterans receiving vocational rehabilitation assistance or veterans' educational assistance for undergraduate study, and the number of veterans who have participated in special pre-discharge or remedial programs subsidized by the Veterans Administration. The institution in return must establish and maintain a full-time Office of Veterans' Affairs to provide counseling and tutorial services, outreach and recruitment activities, and special programs for educationally disadvantaged veterans. After providing the mandated services, the institution may use up to 25% of the award for its general academic/instructional program. 1/

The institution applies directly to the Office of Education for VCIP funds; based on their enrollment of veterans, and disbursement is made through the NIH payment system. 2/

Funding ($'s in thousands)	FISCAL YEAR

Obligation	24,999	23,519	31,238	23,720	23,707	23, 750				

1/ Prior to FY 1974, institutions were required to have an increase of 10% in the number of veterans enrolled each year. Under the present legislation institutions need only to maintain a Veterans enrollment of 10% or demonstrate that their eligible veteran enrollment equals 10% of their undergraduate student enrollment.

2/ Due to limited appropriations, payments for Fiscal Year 1973 were only about 17% of full funding, 14% in FY 1974, 11% in FY 1975, 8% in FY 1976, 12% in FY 1977, and 16% in FY 1978.

Title XII, Section 1203, State Planning Commissions Program
P.L. 89-329, Higher Education Act of 1965 (as amended)

This program provides grant funds and/or technical assistance to State Postsecondary Education Commissions to enable them to conduct Statewide comprehensive planning for all of postsecondary education through comprehensive inventories of, and studies with respect to, all postsecondary educational resources in the State. Such State Commissions must, by law, be broadly and equitably representative of the general public and of all types of institutions of postsecondary education in the State.

Funds are allotted by formula to each State and Territory (excluding the Trust Territory) which has established a State Postsecondary Education Commission, and are available upon application by the State Commission.

Funding ($'s in thousands)	FISCAL YEAR

Title VII-A, Grants for Construction of Undergraduate Academic Facilities
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Training and Facilities, Academic Facilities Branch

This program provides grants for the construction, rehabilitation and improvement of classrooms, laboratories, libraries and other undergraduate academic facilities. These grants are awarded for up to 50% of the project development cost.

The Higher Education Amendments of 1966 specify 23% of the appropriation to be reserved for public community colleges and technical institutes during FY 1968 and 24% in FY 1969 and each succeeding fiscal year thereafter through FY 1975 (Education Amendments of 1972, Section 702).5/ These percentages of the appropriation are allotted to States on the basis of per capita income and number of high school graduates. The remaining 77% for FY 1968 and 76% for FY 1969 and each succeeding fiscal year thereafter through FY 1975 is reserved for other institutions of higher education and is allotted to States on the basis of enrollment in high schools and in institutions of higher education (Section 703). A State Commission determines the priority of projects within a State and recommends the Federal share according to standards in the State plan.

For detailed funding statistics see following pages.

1/ Authorization for FY 1964 was $230 million; however, no funds were appropriated during that year.

2/ Allotments divided between Section 702 and 703 represent year-end figures adjusted to reflect authorized transfers of funds between sections.

3/ Includes obligations divided between Section 703 and 703 from reallotted prior year funds, and from prior year funds made available for reobligation as a result of grant reductions and terminations.

4/ Includes $133 million appropriated funds carried over from FY 1968.

5/ In fiscal years 1970 and 1971 changes in the appropriation percentages were made by Congressional actions. In FY 1970, Congress reserved 60% of the appropriation for public community colleges and technical institutes and 40% for other community colleges and technical institutes. In FY 1971, 100% of the appropriation was reserved by Congress for public community colleges and technical institutes.

6/ Funds were appropriated in FY 1973 but not released until May of FY 1974 for obligation during FY 1974 and FY 1975.

Title VII-B, Grants for the Construction of **Graduate** Facilities
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Training and Facilities, Academic Facilities Branch

Grants under this program to institution of higher education and cooperative graduate centers support the construction, rehabilitation, and improvement of academic facilities for graduate education. These grants may not exceed one half of the eligible development cost of the projects.

Upon recommendations of the Advisory Committee on Graduate Education, awards are made on the basis of approved applications with not more than 12.5% of the appropriation granted to projects in any one State.

Title VII-C, Loans for Construction of Academic Facilities
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Training and Facilities, Academic Facilities Branch

Under this program, loans to institutions of higher education and higher education building agencies support the construction or improvement of undergraduate and graduate academic facilities. The amount of a loan, plus any other Federal funds, may not exceed 80% of the eligible development cost of a project. Loans were made on the basis of approved applications with not more than 12.5% of the appropriation awarded to projects in any one State. The Education Amendments of 1972 removed the 12.5% limitation provision from the Act. Interest on these loans is not to exceed three percent.

The Participation Sales Act of 1966 established a revolving fund for these loans and provided for transfer to the fund of appropriations made available under Title VII-C. Participations in pools of such loans are sold by the Federal National Mortgage Association in order to promote the use of private capital for the program.

---

[1] Such sums as may be necessary.

[2] For Fiscal Years 1965 and 1966, Section 303(c) of the Enabling Act authorizes the appropriation of any unappropriated authorizations from the prior year.

[3] Lending level was, in effect, reduced to $99,789,000 in May of 1966 with the passage of the Participation Sales which froze obligation authority for balance of FY 1966.

[4] Lending level was frozen at $6,255,000 in December 1968 in anticipation of implementing the Annual Interest Subsidy Grant program as a substitute for direct loans. Direct loan obligations in excess of the lending level were permitted only to the extent that funds became available from reduction or cancellation of previously approved loans.

[5] Direct loans authorized to the extent that funds became available from cancellation of previous loan commitments.

Title VII-C, Section 745, Annual Interest Grants
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Training and Facilities

This program was established by the Higher Education Amendments of 1968. Under the program, institutions of higher education may obtain loans in the private capital market for construction of academic facilities, and apply for Federal annual interest Grants, which, over the term of the loan, will represent the difference between the interest paid on the private loan and the interest which would be paid on a loan with an interest rate of 3%. Loans in amounts up to 90% of the project development cost may be eligible for annual interest grant assistance. Not more than 12 1/2% of the funds provided for this program may be used for grants within any one State.

Administrative Expenses of State Higher Education Facilities Commissions

P.L. 89-329, Higher Education Act of 1965 (as amended), Title XII, Section 1202(c)
P.L. 90-247, General Education Provisions Act (as amended), Title IV, Section 421A(b)
Division of Training and Facilities

The Higher Education Act of 1965 requires the establishment of State Commissions to develop and administer the State plans for the Undergraduate Academic Facilities Grant Program (Title VII-A) and the Undergraduate Equipment Grant Program (Title VI-A). Grants are available to these Commissions to cover the costs of administration. Under the Higher Education Amendments of 1966, grants were also available to the same Commissions for comprehensive planning to study future facilities needs in higher education. The Education Amendments of 1972 deleted the facilities planning provisions from the Act, and provided for a new program of grants for statewide comprehensive planning for postsecondary education under Title XII, Section 1203, of the HEA.

Title IX, Part B, Graduate Fellowships for Careers in Postsecondary Education [1]
P.L. 89-329, Higher Education Act of 1965 (as amended by P.L. 92-318)
Division of Training and Facilities, Graduate Programs Branch

This program provides fellowships for graduate students studying for the Ph.D. degree, who are preparing for college teaching careers.

Each fellowship is a three-year award providing a stipend of $3,000 per year for each fellow and $500 per year for each dependent. In addition, a $3,000 per year educational allowance is provided to the institution for each fellow actively enrolled.

From FY 1972-1974, the program's commitment was to continuing fellowships. Between FY 1974 and FY 1977, fellowships were available only to veterans who returned to claim the unused portions of the fellowships they resigned to enter military service.

Funding ($ in thousands)	FISCAL YEAR								
	1959	1960	1961	1962	1963	1964	1965	1966	1967

[1] Prior to the Educational Amendments of 1974, this program was funded under the authority of NDEA IV. It was transferred to the Higher Education Act, Title IX, by the Education Amendment of 1974, and became the Graduate Fellowships for Careers in Postsecondary Education. Until 1976, program emphasis was on careers in postsecondary education. The 1976 Amendments broadened the authority under Title IX and changed the title to Fellowships for Graduate and Professional Study.

[2] This Title authorizes such sums as may be necessary to fund fellowships up to the ceiling provided by the statute. Successive amendments have raised the ceiling from 1,000 in 1959 to 7,500 in 1977. The 1976 Amendments substituted an authorization of $50,000,000 for the fellowships ceiling.

[3] $117,500 of FY 1965 appropriations were transferred to Teacher Cancellations, NDEA II.

[4] $137,000 of FY 1966 appropriations were transferred to Teacher Cancellations, NDEA II.

[5] $1,115,000 of FY 1967 appropriations were transferred to Teacher Cancellations, NDEA II.

1/ This Title authorizes such sums as may be necessary to fund fellowships up to the ceiling provided by the statute. Successive amendments have raised the ceiling from 1,000 in 1959 to 7,500 in 1977. The 1976 Amendment substituted an authorization of $50,000,000 for the fellowships ceiling.

2/ $325,000 of FY 1968 appropriations were transferred to Teacher Cancellations, NDEA II.

3/ In addition, $48,150 of FY 1972 appropriations were transferred to the National Science Foundation to help finance the Foundation's "Survey of Earned Doctorates." Also, $9,000 was obligated for the Advisory Council on Graduate Education.

4/ In addition, $60,000 of FY 1973 appropriations were transferred to the National Science Foundation to help finance the Foundation's "Survey of Earned Doctorates."

5/ In addition, $65,000 of FY 1974 appropriations were transferred to the National Science Foundation to help finance the Foundation's "Survey of Earned Doctorates."

6/ $130,500 of FY 1975 appropriations were transferred to the National Science Foundation to help finance the Foundation's "Survey of Earned Doctorates."

7/ $81,300 of FY 1975 appropriations were transferred to the National Science Foundation for the "Survey of Earned Doctorates." $125,000 was transferred to the State Facilities Commissions to cover administrative costs. $300,000 of the FY 1976 appropriations was transferred to the NEA, Title I Commissions.

8/ Beginning with FY 1978, funds under this authority were utilized for a new initiative, the Graduate and Professional Opportunities Program.

9/ $84,650 of the FY 1977 appropriation was transferred to the National Science Foundation.

Title IX, Parts A and B, "Graduate and Professional Opportunities Program"
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Training and Facilities, Graduate Programs Branch

While no commitments were made to new fellowships after 1972, an administrative decision was made to encourage increased access into graduate and professional education for members of underrepresented groups. A new program the Graduate and Professional Opportunities Program, was created under the authority of Parts A and B.

This program is designed to support activities which help increase access into graduate and professional education. It serves members of groups, particularly minorities and women, that traditionally have been underrepresented in graduate and professional programs in which there is a demonstrated need and a distinct shortage of individuals from these groups. The program authorizes grants to institutions of higher education t strengthen, improve, and expand the quality of graduate and professional programs leading to an advanced degree (other than a medical degree). It also authorizes the award of fellowships for study leading to an advanced degree in a graduate or professional study program. An institution may be awarded funds for fellowships (usually from 5 to 15) in up to five different program areas in which there is a demonstrated need and a distinct shortage of individuals from underrepresented groups.

Institutional grant funds may be requested by accredited institutions of higher education for such activities a faculty improvement, expansion of programs of study, acquiring instructional equipment, cooperative arrangement with other professional or graduate schools, strengthening administration, and the introduction of needed innovation and development of these graduate and professional programs. Fellowships are awarded through the institutions to full-time graduate and professional students from underrepresented minority groups to assist them in preparing for academic and other professional careers in the national interest. Institutions may apply for fellowships of up to a maximum of 12 months. A maximum stipend of up to $3,900 is awarded to a student for a 12-month period of study. The institution at which the fellow is enrolled also receives up to a maximum allowance of $3,900 per year to cover the cost of tuition and other fees.

Funding ($ in thousands)	FISCAL YEAR

Title IX, Parts A and C, Education for the Public Service [1]
P.L. 89-329, Higher Education Act of 1965 (as amended by P.L. 92-318)
Division of Training and Facilities, Graduate Programs Branch

This program is designed to expand and improve the training of persons for the public service. The program provides for grants to institutions of higher education for the purpose of establishing, strengthening and/or improving programs for graduate and professional students who plan a public service career. It also permits the award of fellowships for graduate or professional students who plan to pursue a career in the public service. For the purposes of this program public service education means the preparation for leadership and management careers in all levels of government, as well as for careers in nonprofit community service agencies.

Institutional grants may be used for improving faculty, expanding public service programs for graduate study, strengthening administrative operations, carrying out cooperative arrangements with other graduate or professional schools, and the purchase or rental of educational materials. Fellowships are awarded through the institution to college graduates for full-time study only. Institutions may apply for fellowships up to a maximum of 12 months with a minimum of 9 months for new fellows. Upon subsequent institutional application, fellows in training programs which extend beyond a 12 month period may receive priority in the award of additional months of fellowship tenure to the completion of their programs. Each fellow receives a stipend of $3,900 for the year with no allowances for dependents. Educational allowances of $3,900 are provided to the institution per year for each fellow enrolled in the program.

Accredited institutions which have active graduate and/or professional programs of post-baccalaureate work in public service education leading to a master's degree or above are eligible to apply for support under both Part A and Part C of this title.

Funding ($ in thousands)	FISCAL YEAR

1/ The Higher Education Amendment of 1968 added an "Education for the Public Service" Title to the Higher Education Act. The program was authorized at $340,000 in FY 1969, $5,000,000 in FY 1970, and $13,000,000 both in FY 1971 and FY 1972. The Education Amendments of 1972 incorporated the essential provisions of the program into Parts A and C of Title IX.

2/ The authorization available to this program is found in both Parts A and C of this Title. Part A authorized $30,000,000 in FY 1973, $40,000,000 in FY 1974, and $50,000,000 in each of the fiscal years from 1975-1978. In addition, Part C has, from FY 1973 to the present, authorized "such sums as may be necessary for up to 500 fellowships" annually.

3/ $80,000 of this appropriation was allocated to help support the publication of the Earned Doctorate Survey.

Title IX-D, Fellowships for Domestic Mining and Mineral Fuel Conservation
Higher Education Act of 1965 (as amended)
Division of Training and Facilities, Graduate Programs Branch

This program provides fellowship support for graduate students of exceptional ability and demonstrated financial need, in approved training programs for advanced study in domestic mining and mineral and mineral fuel conservation, including oil, gas, coal, oil shale, and uranium. Fellowships are awarded for graduate or professional study leading to an advanced degree, or for research for the preparation of a doctoral dissertation.

Institutions of Higher Education may apply for fellowships of varying lengths from a minimum of 9 months to a maximum of 24 months, depending upon the length of their training program. Upon subsequent application by the institution, fellows in training programs which extend beyond a 12 month period may receive priority in the award of additional months of fellowship tenure to the completion of their programs. In addition, institutions may apply at the same time for 12 month doctoral dissertation year fellowships. With the exception of the doctoral dissertation year fellowships, the emphasis is placed upon the support of masters degree programs which may include, when relevant, a supervised practicum or internship experience.

Fellowships may be awarded for full-time study only. Fellows receive a stipend of $3,900 for each fellowship year with no allowances for dependents. Institutions receive an additional allowance of $3,900 per fellowship paid to the institution in lieu of tuition and fees.

Title IX, Part D (Sec. 961(a)(2)) Fellowships for the Disadvantaged 1/
P.L. 92-318, Higher Education Act of 1965 (as amended by P.L. 93-343)
Division of Training and Facilities, Graduate Programs Branch

This program provides fellowships to persons who have demonstrated exceptional ability from disadvantaged backgrounds, as determined by the Commissioner of Education, to undertake graduate or professional study. The Council on Legal Education Opportunity, originally funded through the Office of Economic Opportunity, was established to bring about a significant increase in the number of lawyers from minority and disadvantaged groups. The Higher Education Amendments of 1974 gave the Office of Education explicit authority within Part D for funding the activities sponsored by CLEO through contract and grants to that organization.

The training program includes a period during the summer of six to eight weeks of intensive preparation for law school followed by three years of legal training. Every student is supported by a $1,000 fellowship during each of the three years that he or she attends law school. In addition, the participating law schools waive the tuition and fees that normally would be charged to the students.

Title XI, Law School Clinical Experience Program
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Training and Facilities, Graduate Programs Branch

This program is designed to establish and expand programs in accredited law schools to help establish or expand programs which provide clinical experience to students in the practice of law, with preference being given to programs providing such experience, to the extent practicable, in the preparation and trial of cases. Costs no to exceed 90 percent Federal funding are limited to such expenditures that are justified for planning, preparing teaching materials, administration, training faculty members, director's salary and other faculty and attorney's salaries involved in the program, and other related activities in connection with the program.

The program has been authorized since FY 1969, and has remained at its present authorization since FY 1970. It was funded for the first time in Fiscal Year 1978.

Title I, Part A, Community Service and Continuing Education Program
P.L. 89-329, Higher Education Act (as amended)
Division of Training and Facilities

This program provides grants for continuing education and community service programs of colleges and universities for the purpose of assisting in the solution of community problems. The program is administered in each State by a State Agency designated by the Governor, under a State Plan approved by the U.S. Commissioner of Education. The State Agency establishes program priorities for its State, and approves institutional proposals to be funded. Funds are provided on a 66-2/3 Federal and 33-1/3 non-Federal basis. A community service project under this act means an educational program, activity, or service, including a research program and a university extension or continuing education offering, designed to assist in the solution of community problems.

Section 106 authorizes the Commissioner to reserve 10 percent of sums appropriated in order to make "grants to, and contracts with, institutions of higher education (and combinations thereof) to assist them in carrying out special programs and projects . . . which are designed to seek solutions to national and regional problems relating to technological and social changes and environmental pollution." It has been determined that program activities will be limited to either demonstration projects or experimental efforts. Projects must be based on a design for the implementation of organized continuing education activity for adults.

Endowment of Land-Grant Colleges and Universities
Morrill-Nelson Act and Bankhead-Jones Act [1]
Division of Training and Facilities

A "land-grant" college or university is an institution of higher learning designated by a State legislature as eligible for the benefits of the First Morrill Act of 1862 or the Second Morrill Act of 1890. The purpose of the original Act was to insure the development in each State of at least one college "to teach such branches of learning as are related to agriculture and the mechanical arts."

The second Morrill Act provided for permanent annual appropriations--fixed now at $25,000--to each State and Territory. Another $25,000 uniform grant was provided by the Nelson amendment of 1907. The Bankhead-Jones Act of 1935 (sec. 22), as amended June 1952, July 1960, and June 1972, authorizes uniform annual grants of $8,100,000, and $4,360,000 which is allocated on a population basis. The 1960 amendment extended coverage to include Puerto Rico, and the 1972 amendment granted Land-Grant status to the College of the Virgin Islands and the University of Guam.

For further information see Land-Grant Colleges and Universities, 1862-1962, USDHEW

Title VIII, Cooperative Education Program
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Training and Facilities

Under this program, Section 802 of Title VIII of H.E.A. of 1965, as amended, the Commissioner of Education is authorized to make grants to institutions of higher education for the planning, establishment, expansion, or carrying out of cooperative programs. Cooperative Education Programs are those which alternate periods of academic study with periods of related public or private employment.

Grants are awarded to institutions on an annual proposal basis with an institution eligible to receive a maximum of five grants. The maximum grant an institution of higher education can receive in a single fiscal year for the Administration of program is $175,000. For consortiums, the maximum amount is $125,000 times the number of institutions in the consortium.

Under Section 803 of Title VIII, the Commissioner of Education is authorized to make grants to or contracts with institutions of higher education, or combinations of such institutions, and with other public or private nonprofit agencies or organizations, for the training of persons in the planning, establishment, administration, or coordination of programs of Cooperative Education; for projects demonstrating or exploring the feasibility or value of innovative methods of Cooperative Education; or for research into methods of improving, developing, or promoting the use of Cooperative Education programs.

Title III, Strengthening Developing Institutions, Basic Institutional Development Program

P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Institutional Development

Title III is an institutional support program whose purpose is to strengthen developing colleges through funding programs in faculty growth, curriculum improvement, administrative development, and student services. Characteristically, the developing institutions are limited in their ability to attract students, to engage outstanding faculty, to offer diverse curricula and to acquire adequate financial resources. Grants are made to institutions to help them to overcome these handicaps and to develop the basic strengths needed to attain secure status and National visibility. The broad objectives of Title III enable an institution to build the firm foundation from which to launch a major effort in total development.

Of the annual appropriation, 76% is allotted to four-year, degree granting institutions and 24% to institutions with two-year programs. Awards are made on the basis of proposal merit. The National Advisory Council on Developing Institutions assists in the administration of the program. Assurances must be given that Federal funds will be used to supplement, not supplant institutional effort.

Under the Education Amendments of 1972, the five-year requirement for eligibility can be waived by the Commissioner for institutions located on or near an Indian reservation or a substantial population of Indians and/or other native Americans as such action will increase higher education for these minority groups. The Education Amendments of 1974 authorize the Commissioner to waive three years of the five-year eligibility requirement for institutions, if the Commissioner determines that such a waiver will substantially increase educational opportunities for Spanish-speaking people.

In FY 1973, the Title III program was divided into two areas: the Basic Institutional Development Program (BIDP) and the Advanced Institutional Development Program (AIDP). 1/

Title III, Strengthening Developing Institutions/Advanced Institutional Development Program 1/
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Institutional Development

The Advanced Institutional Development Program (AIDP) provides assistance to developing institutions of higher education which are felt to be more advanced than those in the Basic Institutional Development Program. Multi-year (3-5) awards are made to promote innovative projects and special purpose programs, and to assist in the attainment of financial self-sufficiency in order to accelerate development among the relatively highly developed colleges.

The basic rationale underlying the AIDP was the belief that certain institutions could be accelerated in their developmental process by a significant, short-term infusion of funds. Thus, AIDP is more oriented toward the support of comprehensive institutional development than is the Basic Institutional Development Program, and emphasizes the institution's developing capabilities for comprehensive planning, institutional management, and evaluation.

Institutions may participate as direct grantees. Grants are awarded competitively to applicants on the basis of realistic long-range plans for development. Applications are reviewed by a group of professional consultants, drawn from the Nation's academic community, who are experts in their knowledge of the problems and needs of the developing institutions which Title III is designed to serve.

Title VI, Language Training and Area Studies
P.L. 85-864, National Defense Education Act of 1958 (as amended)
Division of International Education

This program authorizes grants and contracts to help American institutions of higher education better serve the national interest in the contemporary world by strengthening the academic base for teaching and research in modern foreign languages, area studies and world affairs.

Specific programs to accomplish these goals include, support to institutions of higher education to establish, maintain, or equip comprehensive foreign language and area studies centers to train specialists for careers requiring knowledge of other countries, their languages, and cultures, and support for graduate and undergraduate international studies programs at institutions of higher education.

In addition, graduate fellowships are awarded for advanced training in foreign languages and area studies, and support of research is directed towards the language learning process, the methodology of foreign language teaching, and the preparation of instructional materials on uncommonly taught languages.

Fulbright-Hays, Section 102(b)(6)
P.L. 87-256, The Mutual Educational and Cultural Exchange Act of 1961
Division of International Education

Programs funded under Section 102(b)(6) of the Fulbright-Hays Act help provide the overseas capability to strengthen American education in foreign languages, area studies, and world affairs. Adequate opportunities for research and study abroad are critical in developing and maintaining the professional competence of foreign language and area studies specialists.

Geared to meet national needs, the Fulbright-Hays programs administered by the Office of Education provide a limited number of research scholars in foreign language and area studies and other educators with a means for acquiring first-hand experience in their area of specialization to update and extend research knowledge and to improve language skills. Program assistance includes fellowships for faculty and doctoral dissertation research, group projects for research, training and curriculum development, and curriculum consultants service of foreign educators to improve international and intercultural education in U.S. schools and colleges.

Funds are awarded on a discretionary basis dependent on proposal merit. Fellowships are made to the individua or group through the institution.

1/ Prior to FY 1974 this program was administered by the Institute of International Studies.

Title IX, Ethnic Heritage Studies
P.L. 92-318, Elementary and Secondary Education Act of 1965, as amended by the Education Amendments of 1972, Section 901 and 902, and by the Education Amendments of 1974.
Division of International Education

This program is designed to increase intercultural understanding among the culturally diverse population of the United States. The program authorizes grants and contracts with public and private nonprofit educational agencies, institutions, and organizations to assist them in developing, and operating ethnic heritage studies programs.

Programs for ethnic heritage studies must be planned and carried out in consultation with an advisory council that is representative of the ethnic group or groups with which the program is concerned. Authorized project activities include curriculum materials development, dissemination, or training, and cooperation with ethnic groups in the community being served by each project. Emphasis will be placed on multi-ethnic endeavors that draw upon the cultural pluralism of the community.

Title V, Section 532, Teacher Centers [1]
P.L. 89-329, Higher Education Act of 1965 (as amended)
Division of Educational Systems Development

This program, created by the Education Amendments of 1976, authorizes funds for teacher centers. These centers are sites where teachers may, with the assistance of consultants and experts, develop and produce curricula and improve their teaching skills through in-service education. Grants are awarded on a competitive basis to local education agencies to plan, establish and operate teacher centers. Ten percent of the appropriation may be use for grants to institutions of higher education to operate such centers. The Commissioner is authorized to compensate State education agencies for application review, technical assistance, and dissemination activities.

Applications from local education agencies and institutions of higher education are submitted to the State education agency for review, comment and recommendation. Only those applications so reviewed and recommended may be approved for funding.

Grants were awarded for the first time under this program in 1978.

Division of Eligibility and Agency Evaluation
Bureau of Higher and Continuing Education

The Accreditation and Institutional Eligibility Staff was created by the Commissioner of Education in 1968 to deal with accreditation and eligibility matters. In March 1976, the Staff was elevated to Division status. The Division has the following major functions: (1) continuous review of procedures, policies, and issues in the area of the Office of Education's interests and responsibilities relative to accreditation and eligibility for funding; (2) administration of eligibility for funding process; (3) administration of the process whereby accrediting associations secure initial and renewed recognition by the Commissioner of Education; (4) liaison with accrediting associations and State agencies; (5) consultative services to institutions, associations, State agencies, other Federal agencies, and Congress regarding accreditation and eligibility for funding considerations; (6) interpretation and dissemination of policy relative to accreditation and eligibility for funding issues in the case of all appropriate programs administered by the Office of Education; (7) support for the Commissioner's Advisory Committee on Accreditation and Institutional Eligibility; and (8) conduct and stimulation of appropriate research.

The Division is comprised of the Director's office and two branches: the Accrediting Agency Evaluation Branch and the Institutional Eligibility Branch. The Accrediting Agency Evaluation Branch works closely with the nationally recognized accrediting agencies, State agencies for approval of public postsecondary vocational education, and State agencies for approval of nurse education which seek to be listed by the Commissioner of Education as recognized accrediting bodies and State approval agencies pursuant to sections 435(b), 435(c), 438(b), 491(b), 497A(d) and 1201(a) of the Higher Education Act of 1965, as amended, the eligibility provisions in section 133(a) of the Education Amendments of 1976, and other legislation beginning with the Veterans Readjustment Assistance Act of 1952. Accrediting agencies and State approval agencies are reviewed in accordance with Criteria for Recognition established to assist in carrying out the Commissioner of Education's legislative mandate to publish lists of recognized accrediting agencies or State approval agencies. Currently, there are 74 nationally recognized accrediting agencies and associations, 10 recognized State approval agencies for public postsecondary vocational education, and 8 State agencies for approval of professional and technical nurse education programs.

The Institutional Eligibility Branch contains a College Eligibility Section and an Occupational School Eligibility Section, which together are responsible for certifying and monitoring institutional or program eligibility to participate in some 25 Office of Education-administered funding programs for postsecondary institutions and students. The universe of institutions covered by the two Branches numbers more than 8,800 schools and colleges.

The Division works closely with the Commissioner of Education's Advisory Committee on Accreditation and Institutional Eligibility, which is established by charter under the Federal Advisory Committee Act (P.L. 92-463). The 15-member public Advisory Committee, which meets quarterly, functions to assist the Commissioner of Education in the performance of eligibility determination duties imposed by the Higher Education Act of 1965, as amended, and other legislation. It also serves to advise on broader policy matters and specific issues relating to accreditation and institutional eligibility for Federal funding; and on the Commissioner's responsibilities to recognize accrediting and State approval agencies.

Division of Eligibility and Agency Evaluation

OUTPUT MEASURES		FISCAL YEAR 1976	1977	1978	1979	1980	1981	1982	1983	1984	1985

STATISTICAL WORK SHEET OE 5004 (REV. 4-66)

Footnotes
(Obligations by State, FY 1978)

Summary by Budget Category

1/ This column includes obligations for Teacher Centers. Although the Teacher Centers Program has not yet been transferred to the Bureau of Higher and Continuing Education, data are included in the *Factbook* for informational purposes. State subtotals do not add up to the BHCE Grand Total because the obligations under the CLEO Program are not available by State.

Professional Training and Development

2/ State subtotals do not add up to the BHCE Total because the obligations under the CLEO Program are not available by State.

3/ Data are not available by State.

Program Assistance

4/ Total does not include funds for technical assistance.

Teacher Centers

5/ While this program has been in the Bureau of Occupational and Adult Education, it is to be transferred to the Bureau of Higher and Continuing Education, and is therefore included in the *Factbook*. These figures do not include $825,000 given to State education agencies for proposal review, technical assistance, and dissemination.

STATISTICAL WORK SHEET OE 5004 (REV. 4-66)

Footnotes
(Obligations by State, FY 1976)

Summary by Budget Category

1/ State subtotals do not add up to the BPE Grand Total because the obligations under the Basic Grants Program and the CLEO Program are not available on a State by State basis.

Student Aid

1/ State subtotals do not add up to the BPE total because the obligations under the Basic Grants Program are not available on a State by State basis.

2/ Data are not yet available on a State by State basis.

3/ Includes unspent funds by New Mexico ($126,127), Wyoming ($23,439), and Guam ($14,234) for distribution to other States.

4/ Must complete State matching arrangements by February 1, 1977.

5/ Obligations for loans to Cuban students are not added into the BPE Total.

Professional Training and Development

1/ State subtotals do not add up to the BPE Total because the obligations under the CLEO Program are not available on a State by State basis.

2/ Data are not yet available on a State by State basis.

STATISTICAL WORK SHEET OE 6004 (REV. 4-66)

Footnotes
(Obligations by State, FY 1975)

Summary by Budget Category

1/ State subtotals do not add up to the BPE Grand Total because the obligations under the CLEO Program are not available on a State by State basis, and monies paid directly to students under the Basic Grant Program's Alternate Disbursement System are not broken down in their State total listing.

Student Aid

1/ Included in this total is $133,542 which was paid directly to students under the Alternate Disbursement System.

2/ Obligations for loans to Cuban students are not added into the BPE Total.

Professional Training and Development

1/ State subtotals do not add up to the BPE Total because the obligations under the CLEO Program are not available on a State by State basis.

2/ Data are not available on a State by State basis.

Footnotes
(Obligations by State, FY 1974)

Summary by Budget Category

1/ State subtotals do not add up to the BPE Grand Total because the obligations under the Basic Grants Program and the CLEO Program are not available on a State by State basis.

Student Aid

1/ State subtotals do not add up to the BPE Total because the obligations under the Basic Grants Program are not available on a State by State basis.

2/ Data are not yet available on a State by State basis.

3/ Obligations for loans to Cuban students are not added into the BPE Total column because this program is administered by BPE with funds appropriated to the Welfare administration.

Student Special Services

1/ Approximately one-third of the Missouri project will take place in Illinois.

Professional Training and Development

1/ State subtotals do not add up to the BPE Total because the obligations under the CLEO Program are not available on a State by State basis.

2/ Data are not yet available on a State by State basis.

Footnotes
(Obligations by State, FY 1973)

Summary by Budget Category

1/ State subtotals do not add up to the BPE Grand Total because the expenditures for interest payments under the Guaranteed Loan Program are not available on a State by State basis and State totals under the Basic Grant Program are not included.

* In addition to the BPE Grand Total, $35.5 million was obligated under the Advanced Institutional Development Program.

Student Aid

1/ State subtotals do not add up to BPE Total because the expenditures for interest payments under the Guaranteed Loan Program are not available on a State by State basis and State totals under the Basic Grant Program are not included.

2/ Includes special allowance.

3/ The amount of funds borrowed under the Guaranteed Loan Program are not added into the BPE total column because these funds are lent to the students by commercial lending institutions.

4/ This data is not added into the BPE totals.

5/ Obligations for loans to Cuban students are not added into the BPE total column because this program is administered by BPE with funds appropriated to the Welfare administration.

Program Assistance

1/ In addition, $35.5 million was obligated under the Advanced Institutional Development Program.

*U.S. GOVERNMENT PRINTING OFFICE: 1979 0-622-699/575
